Guidelines for Creating Your Fantasy Island

Pretend you could make an island exactly how you wanted it. What geographical features would you choose and where would they go? Well, we are going to find out because you are making your own "fantasy island." The purpose of this activity is to show me that you understand what each term means and that you can recreate an accurate drawing of the landform/physical feature.

In your drawing you must....

- Include a title (*Make up a name and try to be creative*). _____
*This should be a subject that you know a lot about, and you should try to be creative and unique. Choose a theme that no one else will choose. (Ex. animal, plant, toy, food, sport, book...)
- Include a **map key** with at least **4 symbols** and what feature they represent. (Ex. capital, city...)
- Include a **compass rose** showing the **4 cardinal AND 4 intermediate directions** (8 total).
- In your drawing you must include these **8 landforms/physical features** and **2 others of your choice** (refer to p. R20–R21 located in the back of your textbook and in your Google Classroom  Folder). Then, be sure to write a brief description for the TWO you chose using those pages of your text.
 - 1. _____ **River**
➤ natural flowing watercourse, usually freshwater, flowing towards an ocean, sea, lake or another river
 - 2. _____ **Mountains**
➤ long row of very high hills
 - 3. _____ **Desert**
➤ very dry land
 - 4. _____ **Ocean**
➤ the largest bodies of water on Earth; should surround your island
 - 5. _____ **Volcano**
➤ mountain with an opening at the top formed by violent bursts of steam and hot rock
 - 6. _____ **Peninsula**
➤ land with water on three sides
 - 7. _____ **Plateau**
➤ high, wide area of flat land, with steep sides
 - 8. _____ **Delta**
➤ triangle-shaped area of land at the mouth of a river
 - 9. Your choice: _____
➤ _____
 - 10. Your choice: _____
➤ _____
- You must label each of the landforms that you used above.** The names you choose should be related to your title/theme (Ex. "Cubby Lake" for "Greatest Baseball Team Island").
- Use **at least 4 different colors** (*make your island look real, but exciting and colorful!*). Please use either colored pencils or crayons. You may use markers **ONLY** to outline if you choose.
- You will receive points for neatness (easy to read), creativity, and effort.

*Please make a **ROUGH DRAFT (BLACK & WHITE) SKETCH** of your island idea/shape on the back of this paper, but don't get detailed or spend too much time on it. This should be completed by _____

Your **FINAL DRAFT** must be completed by _____

Your teacher will provide the paper for your final draft once you have completed your rough draft

Well, we are going to find out because you are making your own "fantasy island." The purpose of this activity is to show me that you understand what each term means and that you can recreate an accurate drawing of the landform/physical feature.

In your drawing you must...

- Include a title (*Make up a name and try to be creative*). Packers Island
*This should be a subject that you know a lot about, and you should try to be creative and unique. Choose a theme that no one else will choose. (Ex. animal, plant, toy, food, sport, book...)
- Include a **map key** with at least **4 symbols** and what feature they represent. (Ex. capital, city...)
- Include a **compass rose** showing the **4 cardinal AND 4 intermediate directions** (8 total).
- In your drawing you must include these **8 landforms/physical features** and **2 others of your choice** (refer to p. R20–R21 located in the back of your textbook and in your Google Classroom 📁 Folder):
 - 1. Ferre River
➤ natural flowing watercourse, usually freshwater, flowing towards an ocean, sea, lake or another river
 - 2. Football Mountains
➤ long row of very high hills
 - 3. Lambeau Desert
➤ very dry land
 - 4. Acme Ocean
➤ the largest bodies of water on Earth; should surround your island
 - 5. Rodgers Volcano
➤ mountain with an opening at the top formed by violent bursts of steam and hot rock
 - 6. Champions Peninsula
➤ land with water on three sides
 - 7. 1st Down Plateau
➤ high, wide area of flat land, with steep sides
 - 8. Starr Delta
➤ triangle-shaped area of land at the mouth of a river
 - 9. Your choice: Lombardi Lake
 - 10. Your choice: Hall of Fame [Greg] Forrest
- You must label each of the landforms that you used above.** The names you choose should be related to your title/theme (Ex. "Cubby Lake" for "Greatest Baseball Team Island").
- Use **at least 4 different colors** (*make your island look real, but exciting and colorful!*). Please use either colored pencils or crayons. You may use markers **ONLY** to outline if you choose.
